You have chosen to equip yourself with the MICHELIN Track Connect technology and we thank you.

This unique solution has been specially developed to optimize the way your vehicle handles on the track.

- More confidence and more pleasure on the track.
- Use your MICHELIN Pilot Sport Cup 2 Connect tires at 100% of their capacity.
- Better times on the track.
- Optimize tyre life on the track.

Use this guide to discover all the functionalities and possibilities on offer to you.
YOUR MICHELIN TRACK CONNECT KIT

All the items in the kit are required for the correct use of the Track Connect application. The sensors should be installed in tyres beforehand by a professional.

THE CONTENTS

1. The 4 sensors
   To be installed in each of your tyres by an approved professional

2. A storage bag
   Contains the receiver
   + 1 short cable
   + 1 long cable
   + a cigarette lighter / USB adapter

3. A phone holder
   To be placed on the dashboard
**PREPARE THE EXPERIENCE**

1. **Download your mobile app.**
   The mobile app can be downloaded from the App Store for iOS (Apple) systems or the Play Store for Android systems.

2. **Tap the REGISTER button** at the bottom of the home screen and enter the information needed to create your account.

3. **View and configure your profile.**
   Through the **MY PROFILE** menu you can find your personal information and information about the application, get in touch with the team at **MICHELIN** and log out from the application.

---

1- The configuration phase (synchronization) between the sensors and the app should be done by your dealer.
2- In case of malfunction, turn your telephone and the Bluetooth off and back on, and disconnect and reconnect your receiver.
3- Make sure that GPS is activated on your phone.
In the **MY GARAGE** menu, select the **ADD A CAR** button to configure your first car.

Once completed, confirm the addition by selecting **ADD THE CAR** again. You can now manage the configuration of your vehicles and the position of the tires on the vehicles via this menu.

Confirm the addition of your vehicle by selecting **ADD THE CAR** at the very bottom of your screen:

Congratulations!
You are a member of the MICHELIN Track Connect community.
Your experience can now begin!

**Unplug the receiver** between two track days to avoid draining your vehicle’s battery.
**Start with a run using the pressures recommended by the manufacturer and stop after a few laps to adjust the pressures based on the application’s recommendations for warm tyres.**

- **Press START and configure your run.**
- **Select your vehicle in MY GARAGE and press THE CIRCUITS.**
- **Specify which circuit you will be driving on and the weather conditions on the track.**
- **Press WARM-UP to prepare your run and monitor the increase in temperature of your tyres.**
- **Press GO to start a run.**

**Check**
- that the Bluetooth on your telephone is activated,
- that the receiver is turned on and positioned between the two front seats.

*When you are less than 2 kms/1mi from a track, the track mode and the track in question are automatically pre-selected by the app if your GPS is activated.*

**Start with a run** using the pressures recommended by the manufacturer and stop after a few laps to adjust the pressures based on the application’s recommendations for warm tyres.
**DURING THE RUN**

With the phone in portrait mode
The pressure and temperature information appears on the 4 dials representing your 4 tyres. A color indicates how closely your tyres' pressures match the recommendations made before the run.
**GREEN:** Optimal  **ORANGE:** Vigilance zone  **RED:** Control zone

With the phone in Landscape mode (horizontal)
The pressure information appears on a dial comparing the pressure of the front and rear axel. The dial displays the amount of oversteer or understeer related to tyre pressure.

Top left:
A stopwatch is automatically set off based on the GPS coordinates of the start line declared in the app.

Top right:
At the end of each lap an indicator lets you know if you are faster or slower than this benchmark time.

At the end of your run, press the button to get recommendations and analyze your run.

Start to drive at over 30 km/h (20 mph) to ‘wake up’ your sensors which will then display the pressures and temperatures on the different dials.
Access the detailed information and recommendations for your run or your warm up.

Pressure gauge function:
Press **ADJUST MY PRESSURES**.
The pressure gauge function provides a visual overview of your pressures compared with the recommended values through changes in the value and the color code.

The pressure adjustment **recommendations** for each tyre are only valid if the vehicle returns to the track within 30 minutes after stopping.

The **change** in pressure of your tyres between the start and the end of your run and the time spent in the optimal pressure range for your tyres.
The change in temperature of your tyres between the start and the end of your run and the time spent in the optimal temperature range for your tyres.

With the phone in portrait mode:
On each of these screens, you can view a summary of the times achieved during your run. Your best time is highlighted.

With the phone in landscape mode:
Use your finger to slide the cursor along the timeline to view and analyze changes in pressure and temperature during the run.
Your experience doesn’t stop after a run. Using the application, you can review your data, analyze them and share them.

View your history: Go into MY RUNS.

Go into MY RUNS: find all the information about your runs (adjustments and changes in your tyres’ pressure and temperature, replay your runs...)
To analyze your run on a specific track:

1. Go to **MY LATEST OUTING** or **MY HISTORY** to see older **RUNS**.

2. From the **MY RUNS** menu, select **REPLAY MY RUN** and relive every moment of your run.

3. Press the **PLAY** button to start the replay:
   - End replay
   - Place, date and conditions for the run
   - Duration of the run and lap indicator
   - Current time
   - Best lap of the run
   - Real-time speed
   - Indicator of lateral and longitudinal G
   - Replay controls
CONTINUE THE EXPERIENCE
TAKE ON NEW CHALLENGES

Discover other circuits and prepare your next runs.

1. Select **THE CIRCUITS** and then the track that you are interested in. You get all the information you need.

2. For each circuit, see:
   - your **best time**,  
   - the **record for the track**,  
   - the **record for your team(s)**.  
   Go into each of these menus to filter the results and get more information.

3. Follow the directions to get to the track. Click on **GO**.
Challenge your friends by creating or joining a team: Select **ADD A TEAM** and name it. If you are the **TEAM** admin or owner, you can invite a new member.
Join the community!

Share your performance statistics with other enthusiasts and make instant comparisons of your recorded data.

Let’s stay connected!
